

My Summer Holiday Fun!

Grade II

2022-2023

Dear Parent,

Summer vacation is the most awaited time of the year in a student's life, when they can relax and have loads of fun with family and friends. However, it is important to keep children engaged in regular meaningful activities, so that they are entertained and we can also ensure that the summer slide in learning is avoided. Keeping that in mind, we have carefully put together fun homework tasks to keep their minds stimulated. Parents, kindly encourage your child to do a little bit every day, monitor their work, and guide them as and when required

Show your love for Nature

1. Pick up any 5 different dried leaves, take a print of the leaves on a handkerchief, T Shirt or an apron and then paste the leaves in your scrapbook.
2. Make your own kitchen garden, plant any 2 to 3 different seeds in pots, water them every day and call your friend when they become saplings and click a picture with the plants.
3. Keep a pot full of water for the birds and animals to drink.

I am an animal lover!

Be creative and make a bookmark of your favourite animal.

Healthy Body, Healthy Mind!

Exercise for 15 to 20 minutes every day. Be sure to include meditation before and cool down for a few minutes after the activity. Make a log of ten activities (Write in the given table) that you did and identify the joints and muscles that you used to do them.

For e.g. When you skip rope, you are using the muscles and joints of your knees, legs and arms.
